1. Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Trade name : Sodium hypochlorite 10-15% (All grades)
Substance name : sodium hypochlorite, solution 10-15 % Cl active
Index-No. : 017-011-00-1
CAS-No. : 7681-52-9
EC-No. : 231-668-3

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the Substance/Mixture : At this time we do not yet have information on identified uses. They will be included in this safety data sheet when available.

Recommended restrictions on use : At that time we do not yet have information on use restrictions. They will be included in this safety data sheet when available.

1.3. Details of the supplier of the safety data sheet

Company : Brenntag UK & Ireland
Albion House, Rawdon Park
GB LS19 7XX Leeds Yeadon
Telephone : 0113 3879 200
Telefax : 0113 3879 280
E-mail address : msds@brenntag.co.uk

1.4. Emergency telephone number

Emergency telephone number : Emergency only telephone number (open 24 hours):
01865 407333 (N.C.E.C. Culham)

2. Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008
Hazard class | Hazard category | Target Organs | Hazard statements
---|---|---|---
Skin corrosion | Category 1B | | H314
Acute aquatic toxicity | Category 1 | | H400

For the full text of the H-Statements mentioned in this Section, see Section 16.

**Classification according to EU Directives 67/548/EEC or 1999/45/EC**

<table>
<thead>
<tr>
<th>Hazard symbol / Category of danger</th>
<th>Risk phrases</th>
</tr>
</thead>
<tbody>
<tr>
<td>Corrosive (C)</td>
<td>R34</td>
</tr>
<tr>
<td></td>
<td>R31</td>
</tr>
<tr>
<td>Dangerous for the environment (N)</td>
<td>R50</td>
</tr>
</tbody>
</table>

For the full text of the R-phrases mentioned in this Section, see Section 16.

**Most important adverse effects**

**Human Health**

- See section 11 for toxicological information.
- No further information available.

**Physical and chemical hazards**

- See section 9 for physicochemical information.
- No further information available.

**Potential environmental effects**

- See section 12 for environmental information.

**2.2. Label elements**

**Labelling according to Regulation (EC) No 1272/2008**

**Hazard symbols**

- Corrosive symbol
- Environmental hazard symbol

**Signal word**

- Danger
Hazard statements : H314 Causes severe skin burns and eye damage.
   H400 Very toxic to aquatic life.

Precautionary statements

Prevention : P260 Do not breathe vapours.
   P273 Avoid release to the environment.
   P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.

   P303 + P361 + P353 IF ON SKIN (or hair): Remove/ Take off immediately all contaminated clothing. Rinse skin with water/ shower.
   P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Additional Labelling:
EUH031 Contact with acids liberates toxic gas.

Hazardous components which must be listed on the label:

| Sodium hypochlorite, solution |

2.3. Other hazards
No other information is available.

3. Composition/information on ingredients

3.1. Substances

<table>

SAFETY DATA SHEET according to Regulation (EC) No. 1907/2006

Sodium hypochlorite 10-15% (All grades)

Version 7.1  Print Date 2011/01/20
Revision Date 2011/01/20
MSDS code: MSHY100

4. First aid measures

4.1 Description of first aid measures

General advice : Take off all contaminated clothing immediately.

Inhaled : In case of accident by inhalation: remove casualty to fresh air and keep at rest. If breathing is irregular or stopped, administer artificial respiration. Call a physician immediately.

In case of skin contact : Wash off immediately with soap and plenty of water. If irritation appears or if the contamination is important, seek medical advice.

In case of eye contact : Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Consult an eye specialist immediately. Go to an ophthalmic hospital if possible.

If swallowed : Clean mouth with water and drink afterwards plenty of water. Never give anything by mouth to an unconscious person. If swallowed, do not induce vomiting - seek medical advice. If a person vomits when lying on his back, place him in the recovery position.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms : Inhalation may provoke the following symptoms:
Cough
Headache
Lung oedema

Effects : Risk of serious damage to the lungs (by aspiration).
SAFETY DATA SHEET according to Regulation (EC) No. 1907/2006

Sodium hypochlorite 10-15% (All grades)

Version 7.1
Revision Date 2011/01/20
Print Date 2011/01/20
MSDS code: MSHY100

4.3 Indication of any immediate medical attention and special treatment needed

Treatment : Treat symptomatically.
            Later control for pneumonia and lung oedema.

5. Fire-fighting measures

5.1. Extinguishing media

Suitable extinguishing media : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.
                              The product itself does not burn.

Unsuitable extinguishing media : Exempt

5.2. Special hazards arising from the substance or mixture

Specific hazards during firefighting : Fire may cause evolution of:
                                     Chlorine
                                     Hydrogen chloride gas
                                     chlorine oxides

5.3. Advice for firefighters

Special protective equipment for fire-fighters : In the event of fire, wear self-contained breathing apparatus.
                                              Wear appropriate body protection (full protective suit)

Further information : Cool closed containers exposed to fire with water spray.
                      Heating will cause a pressure rise - with risk of bursting.
                      Collect contaminated fire extinguishing water separately. This must not be discharged into drains.

6. Accidental release measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions : Use personal protective equipment. Wear respiratory
Sodium hypochlorite 10-15% (All grades)

6.2 Environmental precautions

| Environmental precautions | Do not flush into surface water or sanitary sewer system. Avoid subsoil penetration. If the product contaminates rivers and lakes or drains inform respective authorities. If material reaches soil inform authorities responsible for such cases. |

6.3 Methods and materials for containment and cleaning up

| Methods and materials for containment and cleaning up | Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders). Keep in suitable, closed containers for disposal. |

| Further information | Treat recovered material as described in the section "Disposal considerations". |

6.4 Reference to other sections

For personal protection see section 8.

7. Handling and storage

7.1 Precautions for safe handling

| Advice on safe handling | Do not keep the container sealed. Handle and open container with care. Ensure adequate ventilation. Use personal protective equipment. Avoid contact with the skin and the eyes. Do not breathe vapours or spray mist. Use respirator with appropriate filter if vapours or aerosol are released. Emergency eye wash fountains and emergency showers should be available in the immediate vicinity. |

| Hygiene measures | Keep away from food, drink and animal feedingstuffs. Smoking, |
eating and drinking should be prohibited in the application area. Wash hands before breaks and at the end of workday. Take off all contaminated clothing immediately. Avoid contact with the skin and the eyes. Do not breathe vapours or spray mist.

7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers: Keep in an area equipped with alkali resistant flooring. Keep only in the original container. Store in a receptacle equipped with a vent.

Advice on protection against fire and explosion: The product is not flammable. Normal measures for preventive fire protection.

Further information on storage conditions: Keep in a well-ventilated place. Protect against light. Store in cool place. Do not keep the container sealed.

Advice on common storage: Keep away from food, drink and animal feedingsuffs. Do not store together with acids and ammonium salts.

German storage class: 8B: Non-combustible substances, corrosive

7.3 Specific end uses

Specific use(s): No information available.

8. Exposure controls/personal protection

8.2. Exposure controls

Engineering measures

Refer to protective measures listed in sections 7 and 8.

Personal protective equipment

Respiratory protection

Advice: Use respirator with appropriate filter if vapours or aerosol are released.

Recommended Filter type:
- Combination filter: B-P2
- Combination filter: B-P3
Hand protection

Advice: The glove material has to be impermeable and resistant to the product / the substance / the preparation. Take note of the information given by the producer concerning permeability and break through times, and of special workplace conditions (mechanical strain, duration of contact). Protective gloves should be replaced at first signs of wear.

Material: butyl-rubber
Gloves: 8 h
Glove thickness: 0.5 mm

Material: Polyvinylchloride
Gloves: 8 h
Glove thickness: 0.5 mm

Material: polychloroprene
Gloves: 8 h
Glove thickness: 0.5 mm

Eye protection

Advice: Tightly fitting safety goggles

Skin and body protection

Advice: alkali resistant protective clothing

Environmental exposure controls

General advice: Do not flush into surface water or sanitary sewer system. Avoid subsoil penetration. If the product contaminates rivers and lakes or drains inform respective authorities.
If material reaches soil inform authorities responsible for such cases.

9.2 Other information
No further information available.

---

10. Stability and reactivity

10.1. Reactivity
Advice : This product is a very reactive substance that can react with many inorganic and organic compounds.

10.2. Chemical stability
Advice : Decomposes on heating.
Decomposes on exposure to light.

10.3. Possibility of hazardous reactions
Hazardous reactions : May develop chlorine if mixed with acidic solutions.

10.4. Conditions to avoid
Conditions to avoid : Heat.

10.5. Incompatible materials
Materials to avoid : Acids
ammonium compounds
Acetic anhydride
Organic materials
Hydrogen peroxide
